

**AMENDMENTS TO THE SPECIFICATION**

**Please replace the paragraph at page 66, lines 14-21 with the following amended paragraph:**

Thereafter, preparation of a solution of high titer adenovirus capable of expressing AKBP2 was carried out in accordance with a conventionally known protocol ["A Practical Guide for using the AdEasy System" (~~HYPERLINK~~ "<http://www.coloncancer.org/adeasy.htm>" "<http://www.coloncancer.org/adeasy/protocol2.htm>")]. The adenovirus for control was prepared from pAdTrack-CMV.
